SUMMARY

Results-driven Computer Science graduate currently pursuing an MSc in Computer Science with research focused on Machine Learning for Network Intrusion Detection Systems. Certified through the Google Data Analytics Professional Certificate and the Johns Hopkins University Data Science Specialization, with over 7 years of progressive experience in logistics, fleet operations, administration, and business process improvement.

Skilled in transforming business data into actionable insights using SQL, R, Python, Excel, Tableau, Machine Learning, Statistical Analysis, Data Visualization, and Business Intelligence techniques. Experienced in analyzing operational performance, preparing executive reports, improving customer experience, and supporting data-driven decision-making. Passionate about solving business problems through analytics, predictive modeling, dashboard development, and process optimization.

Seeking opportunities as a Data Analyst, Business Intelligence Analyst, Operations Data Analyst, Supply Chain Data Analyst, Logistics Analyst, Business Analyst (Data-focused), Junior Data Scientist, or Analytics Consultant.

EDUCATION

University of Abuja

M.Sc. Computer Science (In View), Research: Network Intrusion Detection System Using Machine Learning Classification Techniques

Chukwuemeka Odumegwu Ojukwu University

B.Sc. Computer Science

EXPERIENCE

Sales & Fleet Manager

Jan 2021 – Present

Mijag Global Services Limited

Abuja, Nigeria

- Manage fleet operations and vehicle sales supporting a business that sells 8–15 vehicles monthly while overseeing logistics activities.
- Supervise the daily operations of 7 drivers, ensuring efficient scheduling, compliance, vehicle availability, and operational performance.
- Analyze operational data, maintain fleet records, and prepare Excel-based reports to support business planning and management decisions.
- Coordinate vehicle procurement, maintenance scheduling, inspections, disposal, and replacement to maximize fleet utilization.
- Recruit, onboard, and train operational staff while implementing process improvements to enhance efficiency and customer service.

Service Center Supervisor

Jan 2020 – Dec 2020

GIG Logistics Ltd

Abuja, Nigeria

- Supervised a logistics service center processing approximately 200 customer shipments daily.
- Led a team of 8 employees, coordinating daily operations and monitoring service performance.
- Trained 5 employees and personally mentored 2 staff members, contributing to improved operational effectiveness.
- Generated daily operational reports using Microsoft Excel to monitor KPIs and support management decisions.
- Improved customer satisfaction by reducing waiting times, promoting proper shipment packaging and handling, and ensuring timely complaint resolution.

- Strengthened operational controls that helped reduce shipment damage claims and associated costs through improved packaging and handling practices.

Service Center Agent

Jul 2018 – Dec 2019

GIG Logistics Ltd

Abuja, Nigeria

- Processed shipment documentation while maintaining accurate logistics, operational, and financial records.
- Ensured accurate data entry and shipment tracking across daily logistics operations.
- Delivered high-quality customer service through timely issue resolution and effective communication.

Administrative & Accounts Manager

Sept 2015 – Jul 2018

Strongghuk Global Services

- Managed administrative operations, procurement activities, business documentation, and financial records.
- Monitored labour and material costs to support budgeting and operational planning.
- Reconciled accounts and maintained accurate financial records to support business reporting.

PROJECTS

Network Intrusion Detection System using Machine Learning

- Developing supervised machine learning models for cyberattack detection using classification algorithms.

Credit Risk Prediction

- Built predictive classification models to evaluate loan default risk using machine learning techniques.

Interactive Business Intelligence Dashboard

- Designed dashboards in R Shiny and Tableau for KPI reporting and business performance monitoring.

Customer Analytics

- Conducted exploratory data analysis, feature engineering, predictive modeling, and visualization using R.

Supply Chain & Logistics Analytics

- Applied data analysis techniques to evaluate logistics performance, operational trends, and process improvement opportunities.

TECHNICAL SKILLS

Programming: SQL, R, Python, C++

Data Analytics: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization, Data Storytelling, KPI Reporting, Dashboard Development, Business Intelligence

Machine Learning: Predictive Modeling, Regression, Classification, Decision Trees, Random Forest, Logistic Regression, Feature Engineering, Cross Validation, Model Evaluation

R Ecosystem: tidyverse, dplyr, tidyr, ggplot2, caret, Shiny, Plotly, Leaflet, R Markdown

Databases: SQL, Microsoft Access

Business Tools: Microsoft Excel (Advanced Functions, PivotTables, Charts, Data Analysis), Microsoft Word, PowerPoint

Version Control: Git, GitHub

Professional Skills: Analytical Thinking, Problem Solving, Critical Thinking, Stakeholder Communication, Process Improvement, Team Leadership, Project Coordination, Operational Reporting

Core Competencies: Data Analytics, Business Intelligence, Machine Learning, Predictive Analytics, Statistical Analysis, Data Visualization, Dashboard Development, SQL, R, Python, Tableau, Excel, Supply Chain Analytics, Logistics Analytics, Operational Reporting, Business Process Improvement, Stakeholder Management, Team Leadership, Critical Thinking, Problem Solving
