

MARTIN IFEANYI OKWUMUO

DATA ANALYST | DATA SCIENTIST | BUSINESS INTELLIGENCE | OPERATIONS ANALYTICS

Abuja, Nigeria | +234 803 886 5442 | okwumuo.martin@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst and Computer Science graduate pursuing an M.Sc. in Computer Science, with 7+ years of experience across logistics, fleet operations, and business process improvement. Skilled in SQL, Python, R, Excel, Tableau, statistical analysis, and machine learning, with a growing portfolio of end-to-end analytics and predictive modeling projects spanning freight logistics, credit risk, and natural language processing. Combines hands-on operations experience with technical analytics capability to translate data into actionable, business-relevant insight.

CORE TECHNICAL SKILLS

- **Data Analytics:** SQL, Python, R, Excel, data cleaning, data wrangling, EDA, statistical analysis, KPI reporting, data storytelling
- **Business Intelligence:** Tableau, Power BI, dashboard development, business performance reporting, data visualization
- **Machine Learning:** Predictive modeling, regression, classification, decision trees, random forest, logistic regression, NLP/text prediction, feature engineering, cross-validation, model evaluation
- **R Ecosystem:** tidyverse, dplyr, tidyr, ggplot2, caret, Shiny, Plotly, Leaflet, R Markdown
- **Tools & Collaboration:** Git, GitHub, Microsoft Excel, Microsoft Access, Microsoft Word, PowerPoint

PROFESSIONAL EXPERIENCE

Sales & Fleet Manager | Mijag Global Services Limited, Abuja

Jan 2021 - Present

- Conducted operational data analysis that identified inefficiencies and drove a 20% reduction in operational costs, through targeted process changes across fleet scheduling and maintenance.
- Built and maintained Excel-based reporting systems to track fleet KPIs (utilization, vehicle sales, driver performance), directly informing management decisions on procurement and staffing.
- Supervise daily operations of 7 drivers, coordinating scheduling, compliance, and vehicle availability, while overseeing a business selling 8-15 vehicles monthly.
- Coordinate vehicle procurement, maintenance scheduling, inspections, disposal, and replacement ; using operational data to guide fleet lifecycle decisions and reduce downtime.
- Recruit, onboard, and train operational staff while implementing data-informed process improvements to improve efficiency and customer service.

Service Center Supervisor | GIG Logistics Ltd, Abuja

Jan 2020 - Dec 2020

- Generated daily operational reports in Excel to monitor KPIs across a service center processing over 200 shipments daily, directly informing management decisions.
- Strengthened packaging and handling controls, reducing shipment damage claims and associated costs.
- Led a team of 8, training 5 employees and mentoring 2, while reducing customer wait times and improving service delivery standards.

Service Center Agent | GIG Logistics Ltd, Abuja

Jul 2018 - Dec 2019

- Maintained accurate shipment tracking and documentation across daily logistics operations, ensuring data integrity for operational and financial records.
- Resolved customer issues through timely communication, contributing to service reliability.

Administrative & Accounts Manager | Strongghuk Global Services

Sept 2015 - Jul 2018

- Managed administrative operations, procurement activities, business documentation, and financial records.
- Monitored labour and material costs to support budgeting and operational planning.
- Reconciled accounts and maintained accurate financial records for business reporting.

SELECTED DATA ANALYTICS & MACHINE LEARNING PROJECTS

U.S. Freight Transportation Analytics | R, Tableau | BTS FAF6

March, 2026

[GitHub](#) | [Dashboard](#) | [Case Study](#)

- Analyzed 599,529 U.S. freight-flow records from the BTS FAF6 database, cleaning and joining coded transportation, commodity, and geographic data in R.
- Built an interactive Tableau dashboard surfacing freight volume, economic value, transportation modes, and high-value/low-weight freight patterns by state and commodity.

Next-Word Prediction Model (NLP Capstone) | *R, Text Mining, N-gram Modeling*

June, 2026

[GitHub](#) | [App](#) | [Case Study](#)

- Built a SwiftKey-style predictive text model trained on a large English corpus (blogs, news, Twitter), balancing prediction accuracy against memory footprint and response speed.
- Deployed as an interactive Shiny app; documented the full workflow in a reproducible R Markdown report for a non-technical audience.

German Credit Risk Prediction | *R, Machine Learning*

Sept, 2026

[GitHub](#) | [App](#) | [Case Study](#)

- Built and compared classification models (logistic regression, random forest) to predict loan default/eligibility risk, with cross-validation and evaluation on accuracy, sensitivity, and specificity.
- Deployed as an interactive loan-eligibility Shiny app.

Network Intrusion Detection System | *Machine Learning* | *M.Sc. Research Project*

In Progress

- Developing supervised machine learning models using classification techniques for network intrusion and cyber-attack detection.

EDUCATION

M.Sc. Computer Science (In View) - University of Abuja

Research: Network Intrusion Detection System Using Machine Learning Classification Techniques

B.Sc. Computer Science - Chukwuemeka Odumegwu Ojukwu University

CERTIFICATIONS

- Google Data Analytics Professional Certificate - Coursera
- Data Science Specialization - Johns Hopkins University (Coursera)

ADDITIONAL

- National Youth Service Corps (NYSC)
- Target roles: Data Analyst, Business Intelligence Analyst, Operations Data Analyst, Business Analyst, Supply Chain/Logistics Analyst, Junior Data Scientist
