

MARTIN IFEANYI OKWUMUO

DATA ANALYST | BUSINESS INTELLIGENCE | OPERATIONS ANALYTICS

Abuja, Nigeria | +234 803 886 5442 | okwumuo.martin@gmail.com | linkedin.com/in/martin-okwumuo-137a3716a | github.com/okwumuo-martin | okwumuo-martin.github.io

PROFESSIONAL SUMMARY

Data Analyst and Computer Science graduate currently pursuing an M.Sc. in Computer Science, with 7+ years of experience across logistics, fleet operations, administration, and business process improvement. Skilled in SQL, Python, R, Excel, Tableau, data visualization, statistical analysis, business intelligence, and machine learning. Experienced in analyzing operational data, developing KPI reports and dashboards, and translating business data into actionable insights. Combines technical analytics capability with hands-on operations experience to support data-driven decision-making, process improvement, and performance monitoring.

CORE TECHNICAL SKILLS

Data Analytics: SQL, Python, R, Excel, data cleaning, data wrangling, EDA, statistical analysis, KPI reporting, data storytelling

Business Intelligence: Tableau, Power BI, dashboard development, business performance reporting, data visualization

Machine Learning: Predictive modeling, regression, classification, decision trees, random forest, logistic regression, feature engineering, cross-validation, model evaluation

R Ecosystem: tidyverse, dplyr, tidyr, ggplot2, caret, Shiny, Plotly, Leaflet, R Markdown

Tools & Collaboration: Git, GitHub, Microsoft Excel, Microsoft Access, Microsoft Word, PowerPoint

PROFESSIONAL EXPERIENCE

Sales & Fleet Manager | Mijag Global Services Limited, Abuja | Jan 2021 – Present

- Manage fleet operations and vehicle sales supporting a business selling 8–15 vehicles monthly while overseeing logistics activities.
- Supervise daily operations of 7 drivers, coordinating scheduling, compliance, vehicle availability, and operational performance.
- Analyze operational data, maintain fleet records, and prepare Excel-based reports to support business planning and management decisions.
- Coordinate vehicle procurement, maintenance scheduling, inspections, disposal, and replacement to support fleet utilization.
- Recruit, onboard, and train operational staff while implementing process improvements to improve efficiency and customer service.

Service Center Supervisor | GIG Logistics Ltd, Abuja | Jan 2020 – Dec 2020

- Supervised a logistics service center processing approximately 200 customer shipments daily and monitored service performance.
- Led a team of 8 employees, coordinating daily operations and maintaining service delivery standards.
- Generated daily operational reports using Microsoft Excel to monitor KPIs and support management decisions.
- Trained 5 employees and mentored 2 staff members, contributing to improved operational effectiveness.
- Improved customer satisfaction by reducing waiting times, promoting proper shipment packaging and handling, and resolving complaints promptly.
- Strengthened packaging and handling controls that helped reduce shipment damage claims and associated costs.

Service Center Agent | GIG Logistics Ltd, Abuja | Jul 2018 – Dec 2019

- Processed shipment documentation and maintained accurate logistics, operational, and financial records.
- Ensured accurate data entry and shipment tracking across daily logistics operations.
- Resolved customer issues through timely communication and effective service support.

Administrative & Accounts Manager | Strongghuk Global Services | Sept 2015 – Jul 2018

- Managed administrative operations, procurement activities, business documentation, and financial records.
- Monitored labour and material costs to support budgeting and operational planning.
- Reconciled accounts and maintained accurate financial records for business reporting.

SELECTED DATA ANALYTICS PROJECTS

U.S. Freight Transportation Analytics | R, Tableau | BTS FAF6 | 2026

- Analyzed 599,529 U.S. freight-flow records from the Bureau of Transportation Statistics FAF6 database.
- Cleaned and transformed coded transportation, commodity, and geographic data in R, joined reference tables, and developed business measures.
- Built an interactive Tableau dashboard to analyze freight volume, economic value, transportation modes, states, commodities, and high-value/low-weight freight.

German Credit Risk Prediction | R, Machine Learning | 2026

- Built classification models to evaluate loan default risk and support credit-risk decision-making using machine learning techniques.

Interactive Business Intelligence Dashboard | R Shiny, Tableau | 2026

- Designed interactive dashboards for KPI reporting and business performance monitoring using R Shiny and Tableau.

Customer Analytics | R | 2026

- Conducted exploratory data analysis, feature engineering, predictive modeling, and visualization to identify customer and business patterns.

Network Intrusion Detection System | Machine Learning | M.Sc. Research Project

- Developing supervised machine learning models using classification techniques for network intrusion and cyber-attack detection.

EDUCATION

M.Sc. Computer Science (In View) — University of Abuja

Research: Network Intrusion Detection System Using Machine Learning Classification Techniques

B.Sc. Computer Science — Chukwuemeka Odumegwu Ojukwu University

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera

- Data Science Specialization — Johns Hopkins University (Coursera)

ADDITIONAL

- National Youth Service Corps (NYSC)
- Target roles: Data Analyst, Business Intelligence Analyst, Operations Data Analyst, Business Analyst, Supply Chain/Logistics Analyst, Junior Data Scientist
